SUMMARY

To obtain an industry environment position where I can apply my strong willingness to learn, positive attitude, and dedication to every task assigned. I aim to further develop my technical and professional skills, gain meaningful hands-on experience, and contribute to the team's goals in any way I can. Through this training, I hope to enhance my understanding of real-world work processes, improve my work ethic, and grow both personally and professionally in a supportive and growth-oriented environment.

PROJECTS

ATIÉRA HOTEL AND RESTAURANT MANAGEMENT SYSTEM | 2025 – 2026

Administrative | Live: <https://admin.atierahotelandrestaurant.com/>

• SYSTEM DEVELOPER

Built 4 modules from scratch: Management System Visitor Management, Legal Management, and Document Archiving. Integrated REST API endpoints with Core 2, Financial Logistic 1, and HR 1 Employee systems.

SCHOOL MANAGEMENT SYSTEM | 2025-2026

SMS | GitHub

• FULL STACK DEVELOPER

Developed a full-stack School Management System with role-based access (Superadmin, Admin, Admission, Cashier, Student). Built and implemented 5 core modules from scratch: Admin Panel, Admission System, Cashier/Billing System, Superadmin Control, and Student Portal.

Designed and integrated database structure for student records, enrollment, and payment management.

Developed user-friendly interfaces and secure authentication for different user roles.

Managed system logic for CRUD operations and role permissions across modules.

BOOKING SYSTEM

OJT | GitHub, React

• FRONTEND DEVELOPER

Developed the frontend interface of a web-based Booking System.

Designed user-friendly pages for booking, scheduling, and form submission.

Implemented responsive UI for better accessibility across devices.

Integrated frontend components with backend API (if applicable).

Ensured clean layout, usability, and consistent design across system modules.
